

Young Research Forum 2020 - 7th Annual Congress on Plant Science and Molecular Biology

Abdeen Mustafa Omer

Assistant Professor Vivekananda Global University, India, E-mail: Yamini.tiwari@gmail.com

Young Research Forum 2020

Conference Series LLC LTD is organizing “7th Annual congress plant science congress 2020” which is going to be held in the month of May 18-19, 2020 at Auckland, New Zealand. The Theme of the conference is “Exploring the future advancements in the field of Plant science and Molecular Biology”. The conference offers Prestigious Award for Young Research’s at Plant science congress 2020- Gathering the New-born Advances in plant science.

Plant science congress 2020 invites research scholars & young scientists, to submit the nominations for Young Scientist Awards: plant science congress 2020. This plant science congress 2020 Young Scientist Awards will be announced at the upcoming “7th Annual congress on plant science and molecular biology “at Auckland, New Zealand on May 18-19, 2020.

This plant science congress 2020 is an initiative of Conference Series to recognize and provide incentives to the Young Researchers who has shown great potential at their respective field of research. We at Conference Series always encourage the young budding minds to start their career in the field of research and innovations. The core of our Young Research Forum – Young Scientist Awards is to motivate the scholars to present their research ideas in front of the global experts and enhance their knowledge at our international platform. We at plant science congress 2020 provide the best networking experience to the participant for their overall professional growth and to promote the collaborative research.

Plant science congress 2020 Conference will be an investigation of new research Innovation in the field of plant and spread the most recent advancements in Plant Bio-technology and Plant Tissue Culture. Discussion on new technology advancement in the field of Plant Science and Natural Products, current practices in Plant Ecology and Diversity, Plant Hormones, Plant disease & Plant pathogens for the primary care Plant & Agricultural Biotechnology, Plant Physiology, and more. Plant Pathology and Plant-Micro-Biology and other plant conditions, involves a team of Plant Physiology and Biochemistry of which the Biodiversity and Evolution of Plants is a key player. The market is mainly driven by the increasing research funding for plant science from governments and private investors, growing demand for personalized in the U.S. and Europe, and the increasing need for Plant Nanotechnology Encounter the target market with members from across the globe, committed to learn about novel technologies and innovations in Plant Science and Natural Products. This is the best opportunity to outreach the largest gathering of participants from around the world. Conduct presentations, distribute and update knowledge about the advancements in plant science, Plant Pathology and Plant-MicroBiology, and plant Regeneration and in different fields of plant by receiving name recognition at this 2-days event. World eminent speakers, most recent researches, latest treatment techniques and the advanced updates in plant science are the principal features of this conference.

PAST CONFERENCE REPORT

The “6th Annual congress on Plant science” hosted by conference series with the theme “Plants in a Changing Environment “, was successfully executed during October 29-30, 2018 Valencia, Spain. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Plant Science and Bio Technology.

ELIGIBILITY CRITERIA FOR YOUNG SCIENTIST AWARDS: PLANT SCIENCE CONGRESS 2020

The plant science congress 2020: Young Scientist Awards: is for all young Researchers, Research Scholars (Preferably PhD, Post Doc, and Post Graduates & Graduates) who has involved themselves into the R&D sector. The candidates should have minimum 3+ years of research experience and published minimum 3 research articles in international journals. Part time researchers can be considered subject to recommended by the research guide or any director level designated person from the organization.

Applications are invited on first come first serve basis. Only 25 nominations will be accepted globally.

JUDGING CRITERIA

Nominated candidates need to present their research or talk for 25-30 minutes in front of the panel members. Subject should be under the scope of the plant science congress 2020 conference. Selection will be on the basis of individual accomplishments, quality & standards of research, noble thought, research methodology, innovative ideas, style of presentation, significance of the contribution to the field, originality, clarity, and future extended scope of the research and probability of bringing the research in terms of products/services into public domain.

NOMINATION

We invite online applications from desired candidates, self-nomination or nominated by organizations (both private & public sectors)/research guides. The student must be the first author & the student's advisor should attach a statement that their contribution is primarily advisory. Candidates applying for the Plant science Congress 2020: Young Researcher Award should send their resume, along with a letter of recommendation (from a research adviser/faculty/organization heads) to plantscience@asiameetings.com along with the online application at the plant science Congress 2020 Award page.

For any further queries/concern, can reach the Medicinal Plants 2020 secretariat at the below contact details
