Medicine: Medicine is the field of wellbeing and healing. It includes nurses, doctors, and various other experts. It covers diagnosis, treatment, and prevention of illness, medical research, and numerous different parts of wellbeing. Medicine aims to advance and keep up wellbeing and prosperity. Conventional modern medicine is sometimes called allopathic medicine. It includes the utilization of medications or medical procedure, frequently bolstered by directing and way of life measures. Option and reciprocal kinds of medication incorporate needle therapy, homeopathy, herbal medicine, traditional Chinese medicine etc.

Nursing: Nurses work in an assortment of settings and claims to fame. They choose practice in hospitals, emergency clinics, nursing homes, therapeutic workplaces, ambulatory care, occupational health and community health centers. They perform numerous tasks which may vary dependent on where they work or in which area of field they specialize in. Some of the roles and responsibilities they perform are:

- performing physical exams
- obtaining patients medical/health histories
- providing patients with health promotion, counselling and education
- administering medications, wound care, and other health interventions
- coordinating patient care collectively with other members of the healthcare team
- taking part in critical decision making

MedTech & Expo welcomes all the attendees, researchers, presenters, associations and exhibitors from all over the world to Beijing, China. We are delighted to invite you all to attend the “MedTech & Expo” International Meet which is going to be held during October 19-20, 2020 in Beijing, China.
